

CAPABILITIES STATEMENT

Jakebrake is capable of moving heavy haul specialized freight, including military, government, agricultural, industrial, commercial, and emergency equipment, local or long distance. Jakebrake provides logistics and freight transportation within our trusted carrier network at a low-cost to the shipper. We utilize advance technologies to access real time freight location, best routes, and equipment performance reports leading to cost savings to the shipper. Jakebrake is an expert in the supply chain with quick efficient, creative solutions for the challenges that arise. Jakebrake's low rates are designed and intended to develop a long-term partnership.
